

REDI*ROCK®

LARGE BLOCK RETAINING WALL SOLUTIONS

LOCALLY MANUFACTURED BY

YOUR COMPLETE WALL SOLUTION

Gravity

The sheer size and weight of the blocks produce walls over 20 ft (6 m) in tight footprints with smaller crews, depending on site scenarios

Reinforced

Positive Connection with geogrid allows walls to exceed 50 ft (15 m) and handle massive live loads

Freestanding

Walls with texture on multiple sides deliver beauty and brawn for barriers, flood control, signage, and more...

Hybrid

Overcome the most challenging sites by integrating gravity and reinforced sections, without sacrificing consistent appearance
